

# Case Study

## AMEC Evaluation

ON AND OFFSHORE MAINTENANCE SOLUTIONS – WE’VE GOT IT COVERED

After a long and demanding selection process, 120 maintenance products having been evaluated by AMEC. Leighs Paints Epigrip M922M and C750V2 has been chosen as the preferred maintenance coating system for BG Armada. BG operate the Armada platform in the central North Sea on behalf of a partnership consisting of Amoco UK, ConocoPhillips, Fina Exploration and Centrica. Leighs Paints have officially taken over from the current coatings supplier.

Our Technical Services department will be visiting the platform to carry out applicator training.
