Focus on Paint Solutions

LEIGHS LEIGHS

This single pack range is designed to produce consistent, easy to use and reliable coatings, with an aesthetically pleasing finish, and includes primers, primer topcoats, undercoats and finishes.

EPIGRIP

These epoxy resin based products provide the perfect solution when performance is critical. From zinc rich primers applied to blast cleaned steel at 50µm through to surface tolerant materials applied to hand prepared steel at 400µm in a single coat. Our Epigrip range offers versatility with a proven track record.

RESISTEX

Our range of urethane based speciality coatings includes primers with excellent substrate adhesion, as well as finishes with superb resistance to the effects of UV rays. Used in conjunction with our Epigrip primers and intermediates Resistex provides an extended life to first maintenance even in the harshest environments.

SUPPORT & SERVICE

Our experienced technical team are on hand to offer you the support you need. Whether you require a bespoke specification, site survey or maintenance assistance, our team of technical experts offer you complete backup at all stages of your project.

Coupled with our Customer Services team, who offer free consultation or advice on any product or specification requirement; it is clear to see why Leighs Paints is its customer's first choice.
